

## Laptop Computer Program—Eligibility

---

### Overview:

This program would provide free refurbished laptops to select foster care youth and juvenile delinquents. A local nonprofit, City Youth Now ([www.cityyouthnow.org](http://www.cityyouthnow.org)), would purchase the laptops and select the recipients. Applications would be submitted on behalf of the youth by a probation officer, social worker, CASA, attorney, or other adult authorized by the court to provide services to youth. Note that they do not accept requests directly from youth or their caregivers.
